

N-TRAIN 2006 REGISTRATION INFORMATION

N-TRAIN 2006 is once again being held at the Renaissance St. Louis Hotel – Airport. The hotel is located at 9801 Natural Bridge Road, St. Louis, Missouri 63134, very close to the airport. DSO training sessions for CM, CS, PA, PB, PE, and PS will run from the afternoon of 27 January 2006 through noon on 29 January 2006; DSO training for MS will start one day earlier. Other meetings and schools are shown on the official agenda.

Reservations may be made through the hotel at 314.429.1100 or through the reservations center at 1.888.340.2594 giving the Coast Guard Auxiliary as the group name to receive the reduced rate of \$66.00 a night, single or double. You will need to use a major credit card to make the reservation. There is currently no way to make reservations on-line. Reservations are being made as a group for members of the NEXCOM, NADCOs, N-A, and Aides with dates as shown on the published agenda. If there are extraordinary travel needs, please let us know as soon as possible.

The hotel is a short and free shuttle ride from the St. Louis Airport. You may call free from the airport for pick up after you retrieve your luggage from the carousel. Be sure to get off the shuttle at the correct hotel. We will notify well in advance anyone for whom special airport pickup arrangements can be made.

You will need to produce your credit card for scanning at check-in along with your ID card or orders to be exempt from local sales tax. You will also be required to fill out a Missouri State Sales Tax Exemption Statement at check-in. Be sure to double-check your hotel folio for that adjustment and the correct room rate before checkout because no credits may be obtained after checkout. Do not delay making hotel reservations after you are notified that you are traveling because you may risk missing the room block rate after 8 January 2006.

The hotel provides the normal amenities that include phones, iron and ironing board, hairdryer, television, optional Internet connections, and complimentary guest parking. If you have any questions that cannot be answered locally or by the hotel, please contact philhelmer@aol.com by Email.

Thanks and safe travel,
NACO Conference Staff
